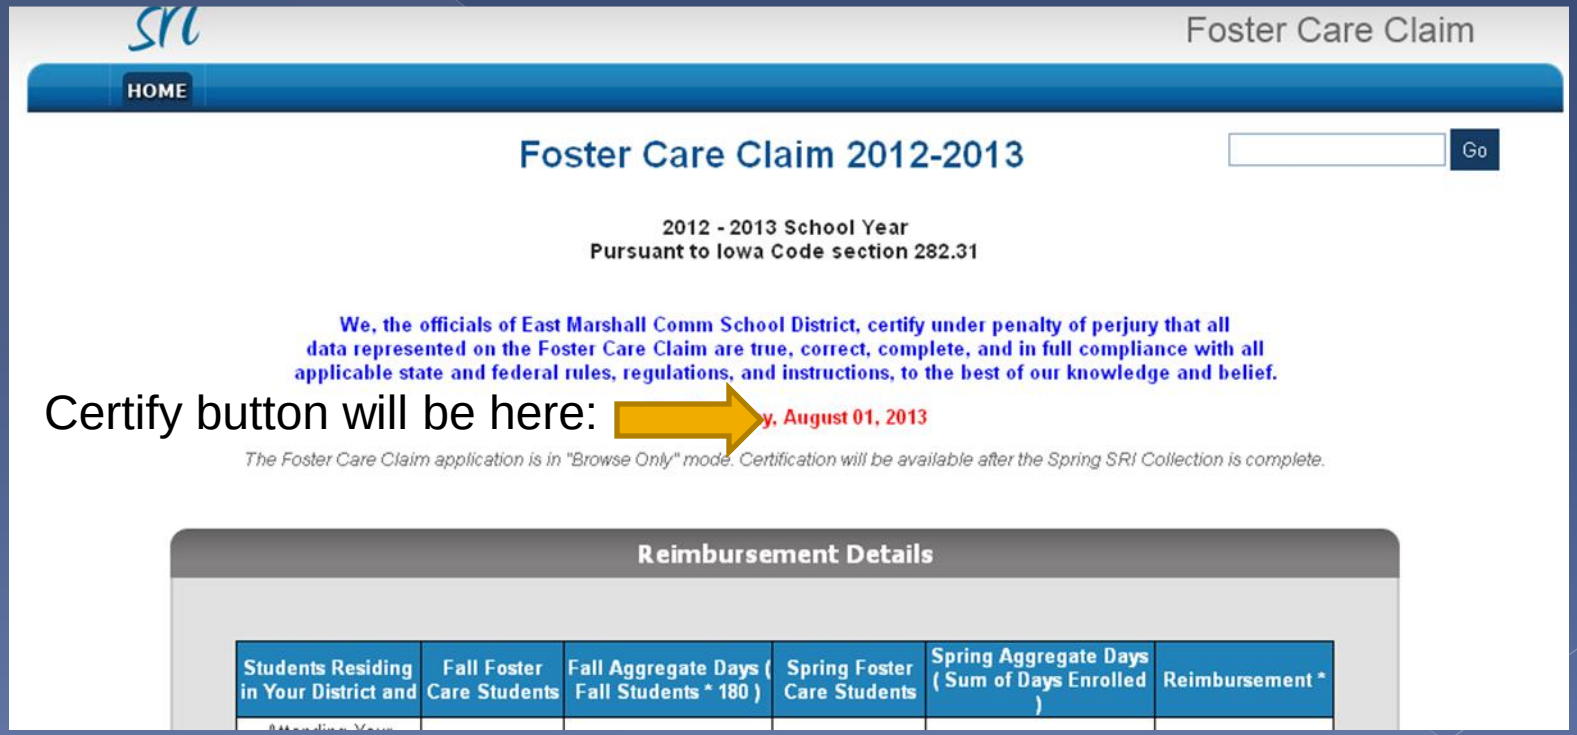
If Spring is not correct:

- Make changes in the student information system
- Resubmit a new file to VRF
- Approve the new file
- Foster Care Claim will be recalculated based on the latest SRI submission.
- All changes must be completed before it's too late! (For PowerSchool, this means before you roll to the new year.)

Calculation:

- If Spring Aggregate days > Fall Aggregate Days, then you can file for a reimbursement for excessive days your district educated foster care students
- Spring Aggregate Days is the total days your district educated foster care students who were only in your district because of their foster care placement.
- Fall Aggregate Days is calculated from the October 1, 2012 count (# foster care students funded x 180)
- Daily cost per pupil = District cost per pupil / 180 days
- (Spring total days – fall total days) x (District Cost Per Pupil / 180 days) or excessive days x daily cost per pupil

The Foster Care Claim application is in "Browse Only" mode. Certification will be available after all districts have certified Spring SRI.



What to do

- Verify all students
- Report errors from fall to carla.schimelfenig@iowa.gov
- Correct errors from spring – if student attended another district, notify that district
- Wait for email indicating foster care claim is available for certification
- Certify on or before August 1.

Certification is only necessary if your district can file a claim > 0.
